

EVERLIGHT UV LED Air Purifier & Sanitizer

(For light steel joist ceiling)

 **99.9% Sterilization**

 **Air Purifier**

The particulate matter in the indoor air carries viruses and bacteria, which can cause threats to human health.
UV LEDs light and photocatalyst can sanitize bacteria and purify indoor air.

Easy Installation

(A general light steel ceiling air-conditioner vent can install.)

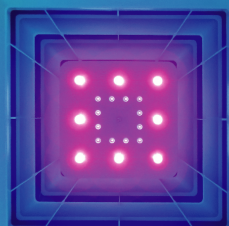

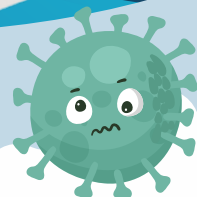

Ultraviolet light

(UV LEDs light makes a powerful tool to defend against germs, bacteria, and molds.)

UVA + TiO₂

(Air purification provides clean and fresh air .)

This product is strictly prohibited from direct exposure to eyes and skin.

EVERLIGHT UV LED Air Purifier & Sanitizer

Function	UVA Photocatalyst Deodorization + UVC Sterilization
Safety	High
Pollution	No mercury, no ozone (Environmental friendly)
Environmental Trend	LED is the mainstream of environmental protection & energy saving.
Lighting	Instant On
Size	160x160x22 mm
Voltage	110~220V AC
Power	8W
UVA LED	16 pcs
UVC LED	8 pcs
UV Radiation Intensity	48,400 uW/cm2
Service Life	20,000 hours
Warranty	2 years

-Quick Installation-

Step 1: Insert screw and metal gasket into the center hole of the air outlet.

Step 2: Fix the plastic gasket and the machine (the luminous surface facing upwards) with a nut.

Step 3: Connect the mains power to the L pole and N pole of the quick connector in the machine to complete the installation
